It took only 18 months to complete the Fisketorvetcenter in Copenhagen, which is one of the biggest shopping centres in Europe. Located directly at the water there are more than 100 shops, restaurants and cafes situated. Additionally, the customers can visit 10 cinemas, one of them contains the largest screen in Europe. Solemnly opened was the shopping centre at the end of November 2000 by the Danish princess Alexandra, who obviously enjoyed to explore the shopping centre on Thyssen escalators and passenger conveyors.
